

A decorative header consisting of a series of overlapping, semi-transparent geometric shapes in various colors: red, purple, blue, cyan, and green, creating a modern, abstract pattern.

VVM – Validation & Verification Methods Final Event

Michael Kram, Head of Automated Driving

Challenges – Why VVM?

Our common goal: making
mobility safe and convenient
for everyone

**Scalability and increasing
complexity demand for common
processes and methods**

**Interdisciplinary
collaboration towards the
common goal**

A dark silhouette of a car is centered in the frame, set against a curved concrete wall with horizontal panels. The car is surrounded by vibrant blue, ethereal light trails that flow around it, suggesting motion and advanced technology. The scene is dimly lit, with the primary light source being the blue trails themselves.

**Joint path towards safe
automated driving**

Thank you
